Invest in Future Happiness

You put money in the bank, you buy bonds, securities and insurance as investments against future contingencies. Why not also fortify your spiritual welfare with a constant supply of mental refreshment in the form of good music?

Music is now recognized as a necessity in the modern home. Imagine a home without food, a home without newspapers, magazines, books, etc. Food feeds the body, literature feeds the brain, music feeds the soul. Next to religion, it is the world's greatest solace.

The purchase of a photograph opens to you the doors of the entire world of music. It puts you in direct touch with the greatest composers, the greatest artists and musical organizations. It brings their art right into your own home—into your living room. The purchase of a

NEW EDISON

"The Phonograph with a Soul"

means considerably more than the purchase of an ordinary phonograph, or talking machine, because it brings to you the art of great musical artists with such unerring fidelity that the artists themselves could give you no more. That is what we claim and it is the truth, but you won't be thoroughly satisfied that it is true until you hear the New Edison for yourself.

It will gladly acquaint you with Mr. Edison's new art—Music's Re-Creation.
